

Daftar Pustaka

1. Bowles, J.E. (1979) : “Physical and Geotechnical Propertis of Soil”, 2nd edition, McGraw – Hill Book Company, New York.
2. Das, Braja M.; Endah, Noor; Mochtar, Indrasurya B. : “mekanika Tanah”, (Prinsip-prinsip Rekayasa Geoteknis), Jilid 1, Penerbit Erlangga.
3. I Sanlerat, G. (1972). “The Penetrometer and Soil Exploratio”, Development in Geotechnical Engineering, vol 1, Elsevier Publishing Company, Amsterdam.
4. Jumawan, I., (1992). “Laporan Praktikum Mekanika Tanah”, Jilid I dan II, Laboratorium Mekanika Tanah Maranatha, Bandung.
5. Lambe, T.W. (1951). “Soil Testing For Enginee”, John Willey & Sons, Inc, New York.
6. Lambe, T.W. (1951). “Soil Mechanic”, John Willey & Sons, Inc, New York.
7. L.H. Shirley, Ir. (1987) : “Geoteknik dan Mekanika Tanah”, (penyelidikan Lapangan dan Laboratorium), Nova, Bandung.
8. Lupini, J.F., Skinner, A.E. & Vaughan, P.R., (1981). “The Drained Residual Strength of Cohesive Soil”, Geothecnique.
9. Najoan, T.F., (1991), “Kestabilan Lereng dengan Tinjauan Utama pada Tanah Lempungan”, Jilid I dan II, Direktorat Penyelidikan Masalah Air, Dirjen Pengairan, Departemen Pekerjaan Umum, Bandung.
10. Pusat Penelitian dan Pengembangan Pengairan, (1990). “Metode Pengujian Laboratorium Geser Langsung Terkonsolidasi dan Terdrainase untuk Benda Uji Tanah”. Bandung Litbang Pekerjaan Umum, Bandung.

11. Skempton, A.w., (1985). "Residual Strength of Clays in Landslides", Geotechnique, Volume 35, No.1, pg.3-18.
12. Townsend, F.C. and Gilbert, P.A., (1973). "Test to Measure Residual Strength of Some Clays Shales", Geotechnique, Volume 23.
13. Voight, B., (1973). "Correlation Between Atterberg Plasticity Limits and Residual Shear Strength of Natural Soils", Geotechnique, Volume 23, pg.265-267.
14. Wesley, L. Dr. Ir (1977) : "Mekanika Tanah", 4th edition, Badan Penerbit Pekerjaan Umum, Jakarta.
