

ABSTRAK

Toko Sinar Punama Putra adalah salah satu toko yang menjual berbagai macam barang seperti tinta, undangan, kertas, dan cairan untuk tinta, terletak di Ciamis yang sedang berkembang dan mulai dikenal di kota sekitarnya seperti Pangandaran, Banjar, Tasikmalaya. Keseluruhan transaksi baik penjualan, *inventori* sudah bersifat komputerisasi. Namun sebelum dikomputerisasikan pihak SPP masih menulis transaksi baik penjualan, *inventori* di buku lalu memasukkan ke aplikasi desktop, sehingga mengalami kesulitan saat hendak memasukkan data yang telah dibukukan ke komputer. Banyak data yang hilang maupun lupa ditulis di buku. Untuk itulah dibuatlah aplikasi *online* untuk menanggulangi permasalahan tersebut. Pembuatan aplikasi ini menggunakan bahasa pemrograman ASP.Net C# dengan *visual studio* 2010 serta *SQL Server Express* 2008 R2 sebagai sarana pengerjaannya. Penelitian ini telah menghasilkan sebuah aplikasi yang bisa menangani transaksi penjualan, inventaris, dan akuntansi secara online yang ada toko Sinar Purnama Putra.

ABSTRACT

Sinar Purnama Putra store is a store that sells many items such as ink, paper, invitation, cards, and liquid for the ink, which is located in Ciamis that in developed and became known in other cities such as Pangandaran, Banjar, Tasikmalaya. A whole lot of sales, inventory has become computerized. But before it computerized SPP still write the transaction in the book then input it to the application desktop. So experiencing difficulties when trying to insert data that has been recorded to the computer. Much data is lost or forgotten written in the book. For that reason online application is made to overcome these problems. This application is made using ASP.NET programming language C# with visual studio 2010 and SQL Server Express 2008 R2 as a basic to make the application. This research has produced an application that can handle sales transaction, inventory and accounting online.
