

## CHAPTER IV

### CONCLUSION

In the previous chapters, I have analyzed the problem I had when I did my internship, which is my difficulty in translating English news articles everyday in Auto Radio 88,9 FM Bandung. There are three causes of the problem. The first is I did not enjoy reading. The second is I found many difficult words while reading the English articles. The third I lacked of experiences in translating English articles. I also find the effects of my problem. The first, I had to spend a lot of time to finish translating nine English articles. The second, my partner had to do recording for delivering the articles in two time which was not effective. And the third, the schedule of Auto News segment was once changed because of my late submission of the articles. There are three potential solutions to solve the problem. The first potential solution is I will join training program about translation in my spare time. The second potential solution is I will use online English dictionary. The third potential is I will practice by reading English news regularly at home.

Based on the analysis in the previous chapter, I conclude that the best solution to solve the problem is by combining the three potential solutions. The first, joining some training program about translation will help me to get more knowledge, which was effective to learn new ways to be good at translating. It also will be better to fill my spare time to get a new knowledge than just do something useless. The second, using online dictionary will be effective in the office to help me find the right meaning of the difficult words while doing the job. As long as the network in the office is good and I get the computers, it will be very helpful to use the online dictionary, on the other hand it will be faster than using dictionary books. I also need to improve myself. Therefore, the third potential solution will be helpful too. Reading at home is also an important thing that will help me to be accustomed to reading English articles, so that when I do the job at work I will get used to read English article. By combining all three potential solutions I sure that it will become the best way to solve my problem that I found during my internship and all the potential solutions will also help me to handle the problem that I made during the internship.

At the end of this term paper, I sincerely hope that this term paper could give educational information to the readers. Moreover, I hope this term paper will be an option to help anyone who get the same problem as mine.
