

## **ABSTRAK**

Sistem komunikasi, informasi dan pengolahan data dalam sebuah komunitas merupakan hal yang sangat penting. Jumlah jemaat eXcellent Generation yang telah mencapai angka ratusan, membuat penyimpanan dan pengolahan data secara manual tidak memungkinkan, banyak masalah yang ditimbulkan karena sistem manual antara lain kesalahan sumber daya manusia dan penyimpanan data membutuhkan waktu yang lama. Sistem komputerisasi menjadi alternatif bagi penyimpanan dan pengolahan data. Penjangkauan anak-anak muda harus relevan, oleh karena itu, dunia maya adalah media yang potensial untuk publikasi dan menarik anak-anak muda untuk datang ke gereja. Penelitian ini bertujuan untuk membuat aplikasi berbasis website yang dikembangkan untuk menjawab permasalahan eXcellent Generation Youth Community dalam hal publikasi, media informasi, dan penyimpanan data. Melalui studi kasus di eXcellent Generation Youth Community, didapatkan kondisi nyata dari proses yang berjalan saat ini yang dapat membantu dalam proses analisa, perencanaan sistem dan perancangan aplikasi. eXcellent Generation dapat dikenal oleh masyarakat luas melalui media internet dengan dibuatnya aplikasi ini.

## **ABSTRACT**

Communications, information systems and data processing is very important in a community. The number of XG's members that has reached hundreds makes it is impossible for eXcellent Generation to store and process data manually, there are so many problem caused by the manual system because of the human errors and data proccesing takes a long time. Computerized systems become a possible alternative for storing and processing data. Youth outreach must be relevant, therefore, the virtual world is a potential media for publicing XG youth and attract young people to come to church. This research has a purpose to make a website-based application which can resolve problems of excellent Generation Youth Community in publshing, media information, and data storage. With case study in excellent Generation Youth Community, we can get the real condition of the current processes so it can simplify the analytical process, planning the system and design applications. Through this application, eXcellent Generation can be known by the public via the Internet.

Key words: eXcellent Generation, data, information media, publication, website
