

## **ABSTRAK**

Pembuatan jadwal mata kuliah dilakukan setiap terjadi pergantian semester, setelah mahasiswa memasukkan mata kuliah yang diambil pada semester yang bersangkutan. Inti dari penjadwalan matakuliah adalah bagaimana menjadwalkan sejumlah komponen yang terdiri atas mahasiswa, dosen, ruang kelas, dan waktu dengan sejumlah batasan-batasan (*constraint*) tertentu. Untuk membuat jadwal yang memenuhi kebutuhan seluruh komponen tersebut diperlukan waktu, tenaga, dan ketelitian. Atas dasar itulah dibutuhkan adanya sebuah sistem penjadwalan otomatis yang mampu menangani seluruh batasan-batasan yang diperlukan. Sehingga proses penjadwalan yang dilakukan akan lebih terkomputerisasi.

Kata Kunci: penjadwalan, mata kuliah, kelas

## **ABSTRACT**

*The scheduling of subject is done every new semester, after college student submitting the subject that they will take for next semester. The core of subject scheduling is how to schedule between college student, lecturer, class room and the time with some constraint to be used. To make sufficient and good result that meet every component; time, energy, and accuracy is needed. That's why a good system that can do automatic scheduling that can comply to all constraint is needed, so that scheduling processes can be done automatically and computerized.*

*Keywords: scheduling, subject, class*
