

## **ABSTRACT**

*Indonesian Directorate General of Taxation is the government agency which controls the payment of taxes that are charged to the public for the progress and development of society. Complexity in paying taxes and ignorance in the calculation of tax sometimes could be an excuse the taxpayers not to pay taxes. Therefore, a website that make it easy to calculate, pay, and ask for tax staff should be developed. This application was developed on the dotNET Framework using Visual C # language with ASP Dot NET platform and SQL Server 2008 database application. With the development of this website is aimed to facilitate the taxpayers to pay taxes and raise income taxes in the country.*

**Keywords:** *Indonesian Directorate General of Taxes, Income Tax and Value Added Tax, Visual C#, ASP.NET, SQL Server*
