

ABSTRAK

Internet telah menjadi salah satu media pertukaran dan pencarian informasi yang digunakan oleh hampir separuh penduduk dunia. Kelebihan *internet* sebagai media pertukaran dan pencarian informasi dibandingkan dengan media lainnya adalah *internet* memiliki sumber informasi yang sangat besar jumlahnya, dapat diakses kapanpun dalam waktu yang relatif cepat dan pertukaran informasi yang terjadi antar pengguna internet dapat berlangsung hanya dalam hitungan menit. Sebagai penyedia informasi, *internet* menyediakan berbagai jenis informasi dalam beberapa bentuk, salah satunya adalah melalui RSS (*Really Simple Syndication*). Dengan berlangganan RSS, maka pencari informasi akan mendapatkan berita yang selalu *update* secara gratis selama mereka terhubung dengan *internet*. Sedangkan sebagai media pertukaran informasi, *internet* memiliki *email* (surat elektronik) yang memungkinkan penggunanya melakukan pertukaran informasi secara cepat.

Kata kunci: *internet*, informasi, RSS, *email*.

ABSTRACTION

Internet has become one of the medium for information exchange and search, used by nearly half of the world population. The advantages of internet as the medium of information exchange and search compared to other media are the internet has a very large number of information source, can be accessed at any time and the exchange of information that occurs between internet users can be done in minutes. As a provider of information, the internet provides various kinds of information in several form, one of the form is RSS (Really Simple Syndication). By subscribing to RSS, the information seekers will get the news updates for free as long as they get connected to the internet. As an exchange medium, the internet has an email (electronic mail) that allows users to exchange information rapidly.

Keywords: internet, information, RSS, email.
