

INTISARI

Internet telah menjadi salah satu media pertukaran dan pencarian informasi yang digunakan oleh hampir separuh penduduk dunia. Kelebihan internet sebagai media pertukaran dan pencarian informasi dibandingkan dengan media lainnya adalah internet memiliki sumber informasi yang sangat besar jumlahnya, dapat diakses kapanpun dalam waktu yang relatif cepat dan pertukaran informasi yang terjadi antar pengguna internet dapat berlangsung hanya dalam hitungan menit. Salah satu aplikasi internet yang biasa di pakai pengguna adalah Twitter. Twitter didirikan pada bulan Maret 2006 oleh perusahaan rintisan Obvious Corp. Twitter adalah sebuah situs web *social networking* dan juga sebuah *microblog* yang *memberikan* fasilitas bagi pengguna untuk mengirimkan pesan, berita berupa tulisan dengan panjang maksimum 140 karakter. Hal ini tak ubahnya seperti SMS yang merupakan fasilitas handphone.

Maraknya pengguna twitter dan semakin berkembangnya teknologi maka memungkinkan untuk membuat aplikasi yang dapat membantu pengguna dalam menggunakan twitter. Aplikasi yang dibuat dapat memberikan fitur-fitur yang ada di dalam twitter dan menambahkan fitur yang belum ada di dalam twitter dan memudahkan serta mempercepat pengguna dalam melakukan proses-proses yang ada di dalam twitter.

Aplikasi pengolahan data twitter dapat memberikan kemudahan untuk pengguna aplikasi dan menjadi salah satu alat bantu yang cukup berguna dalam twitter.

Kata Kunci: internet, twitter, microblog.

ABSTRACT

Internet has become one of the medium for information exchange and search, used by nearly half of the world population. The advantage of internet as a medium of information exchange and search compared to other media is the internet has a very large number of information source, can be accessed at any time and the exchange of information that occurs between internet users can be done in minutes. One of the internet applications that have been used is Twitter. Twitter is established on March 2006 by Obvious Corp. Twitter is a social networking website and a microblog that give a lot of facilities for user to send 140 characters message or news. This is like send a SMS from handphone.

The rise of twitter users and the development of technology it is possible to create applications that can assist users in using twitter. The application that created to provide features that are in twitter and add features that have not been there in the twitter and facilitate and speed up the user in performing the processes that exist within twitter.

Twitter data processing applications can provide convenience to users and applications into one tool that is useful in a twitter.

Keywords: internet, twitter, microblog.
