

ABSTRACT

PT X is one of the companies engaged in the field of textiles. In the mid-year 2008, one of the members (group) from PT P located in Semarang, need a system that resembles SAP to help the production process. Therefore, the authors make an application to help employees to achieve maximum results with this application. This web-based applications, and can be used by different unit. This application can be used to make material, PRO, Bale Mixing, confirmation of the production, attendance, to get the report. It is expected that with the application, PT X become easier in the process of production.

Keywords : Material, PRO, Bale Mixing, Confirmation of the production,
Attendance
