

## **ABSTRACT**

Success in mastering information technology will determine the success of a company in the competitions. Therefore, PT Akur Pratama improves the performance of the company so that the working process which is initially done manually will shift into automatically. The Desktop Operational Store used to recording data and controlling the goods stock requires a fast process so the performance of employees will be effective and efficient. However, it will be problems if most of the process is done manually. The recording and managing goods stock are expected to be processed more quickly with this application.

**Keyword : Desktop Operational, Management of stock,Operational store**
