

ABSTRAK

Aplikasi ini dibuat dengan tujuan membantu mengelola proses ujian sehingga semua data ujian yang dulunya bersifat manual dapat dibuat dengan sistem komputerisasi. Hal ini akan membantu pengelolaan ujian menjadi lebih cepat, efisien dan efektif.

Pembuatan aplikasi e-testing ini akan mengelola soal-soal ujian siswa kelas 4-6 Sekolah Dasar (SD). Soal Ujian yang semula dibagikan secara kertas kepada murid-murid, namun sekarang akan dijadikan sistem komputerisasi dengan adanya aplikasi e-testing ini maka soal-soal tersebut dapat dikelola menjadi sebuah sistem bank soal. Dan, juga aplikasi ini dapat juga akan mengelola data guru dan data murid. Serta aplikasi ini juga dapat membantu guru agar dapat memantau sejauh mana perkembangan murid.

Kata kunci : PHP, MYSQL, Banksoal, Soal ujian.

Abstract

The purpose of this application is to help manage examination process so that exam data which was processed manually can now be computerised. This will help make examination process be faster, more efficient, and more effective.

This e-testing application will manage exam questions for elementary school level 4-6. Exam questions which was handed to the students on paper, will now be made computerised with this e-testing application so that those questions can be managed into question bank. This application can also manage teachers and students data. Teachers can also use this application to monitor student progress better.

Keywords : PHP, MYSQL, Question bank, Exam questions.
