

ABSTRACT

Travel and Tour industry is a business which combines a lot of financial data in its daily operations. Keeping and managing those data in the travel and tour industry could be cumbersome because many transactions happened. Moreover, human's error happens frequently since too much financial data involved dan changed. A lot of work must be done just to generate reports needed. "Selia Tour and Travel Accounting System" wants to eliminate the cumbersome in managing, keeping, generating report, and reducing human error in doing all travel and tour industries' financial operations by automatizing their transactions. This system would be developed using JAVA programming language and mySQL database. JasperReport is used to generate all reports necessary.

ABSTRACT

Bisnis agen perjalanan dan tour merupakan sebuah usaha yang melibatkan bermacam-macam data keuangan dalam kegiatan sehari-harinya. Menangani dan menjaga data-data keuangan tersebut merupakan pekerjaan yang tidak mudah dan melelahkan karena melibatkan banyak transaksi. Selain itu kesalahan manusia kerap kali terjadi dalam pencatatan dan pada saat melakukan perubahan data-data tersebut. "Selia Tour and Travel Accounting System" dibuat untuk menghilangkan kelelahan dalam menangani dan menyimpan data-data keuangan. Selain itu, "Selia Tour and Travel Accounting System" juga dibuat untuk mengurangi kesalahan-kesalahan manusia dalam berhubungan dengan data-data transaksi keuangan dan mempermudah dalam pembuatan laporan-laporan keuangan. Aplikasi ini akan dibuat menggunakan bahasa pemrograman JAVA dan database mySQL. Sementara untuk membuat laporan akan menggunakan JasperReport.
