

ABSTRAK

PT. Baru Dan Rapih adalah salah satu perusahaan bordir dan sablon yang berada di Bandung. Dalam mengelola bisnisnya, perusahaan telah dibantu suatu sistem informasi, akan tetapi sistem informasi ini nampaknya dinilai belum cukup dalam membantu perusahaan. Hal ini mendorong perusahaan untuk merencanakan sistem informasi baru yang dapat mendukung proses bisnisnya secara maksimal. *TOGAF* atau *The Open Group Architecture Framework* memberikan suatu kerangka kerja dalam perancangan *enterprise architecture* yang menghasilkan *blue print* dalam pengembangan sistem informasi. Sumber data dalam penulisan ini didapat dari hasil observasi, wawancara dan studi kepustakaan dari internet. Dengan menggunakan *TOGAF* sebagai kerangka kerja dalam perencanaan pengembangan sistem informasi, diharapkan perusahaan akan mendapatkan suatu sistem informasi yang tepat.

Kata Kunci : proses bisnis, perencanaan, sistem informasi, *TOGAF*.

ABSTRACT

PT. Baru Dan Rapih is one of the embroidery and printing company located in Bandung. In managing its business, the company has assisted an information systems, but it seems that's information systems considered not sufficient in helping the company. This encourages companies to plan a new information systems that can support its business processes to the fullest. TOGAF or The Open Group Architecture Framework provides a framework for enterprise architecture design that produces a blue print in the development of information systems. Data sources is obtained from observations, interviews and literary study of the internet. By using TOGAF as a framework for information systems development plans, expected the company will get a proper information systems.

Key : business processes, plans, information systems, TOGAF.
