

ABSTRACT

Technology has developed rapidly now. The use of information technology widely applied in various fields. E-Commerce on information technology has the most important role. Theories used include Java, Mysql, DFD, ERD, flowchart, data dictionary, pspec. Source data are taken from the results of observations made. Thus was created the C2C Web base which will facilitate customers in online transaction. This Web application also features a product search and buyer satisfaction rating of the seller.

Keyword : E-Commerce C2C Website

ABSTRAK

Sekarang ini teknologi telah berkembang pesat. Penggunaan teknologi informasi banyak diterapkan dalam berbagai bidang. Pada E-Commerce teknologi informasi memiliki peranan paling penting. Teori yang digunakan antara lain Java, mysql, dfd, erd, flowchart, kamus data, pspec. Sumber data yang diambil dari hasil observasi yang dilakukan. Maka dari itu dibuatlah Web Berbasis C2C yang akan mempermudah customer dalam bertransaksi secara online. Web ini juga dilengkapi dengan fitur pencarian produk dan rating kepuasan buyer terhadap seller.

Kata kunci : E-Commerce C2C Website
