

ABSTRACT

Saung Angklung Udjo (SAU) is one-stop cultural workshop, consists of : performance *Venue*, *Bamboo handicraft* centre. SAU have difficulty in informing the *News* and *Events* because it still does not have useful *Web*-based application. SAU also had difficulty in introducing a culture of Indonesia, angklung, and to know how people are interested in angklung as well as *News* and *Events* that provided by SAU. With that problems then *Web*-based application is designed to inform the *News* and *Events* even records the page views data traffic to see how visitors are interested to the *News* and *Events* that provided by SAU.
