## **ACKNOWLEDGEMENTS**

First of all, I thank Jesus Christ for his guidance and for giving me strength in completing this thesis entitled “A Study of Teachers’ Strategies For Handling Primary School Students’ Behavioral Problems in X Primary School in Bandung”, which is submitted to the English Department of the Faculty of Letters in partial fulfillment of the requirements for the ‘Sarjana’ degree. Despite some difficulties, I have been able to finish it. A lot of thanks are due to both my supervisors, Maryani and Joanna Deborah who have helped me in finishing my thesis.

I would also like to thank both of my parents, Tanto and Lu Kiau, for their support, prayers, and blessing not just when I was writing my thesis, but also during my whole study in the Faculty of Letters.

I would also like to thank all of my friends for their support and prayer. To my special friend, Andre Aditya, thanks for being great listeners for me and also to all of my friends at the English Department, Faculty of Letters, Maranatha Christian University, class of 2012, thanks for these great four years. I also thank all people who have helped me complete my thesis. I cannot mention their names one by one but thanks for all your support and prayer.
