

ABSTRAK

Attachment to God merupakan ikatan afeksi yang terjadi antara manusia dengan Tuhan sebagai sosok attachment. Penelitian ini menggunakan teori Attachment to God menurut Kirkpatrick dengan tujuan untuk mengetahui model attachment to God pada anggota komsel GBI Stairway From Heaven Bandung.

Responden dalam penelitian ini berjumlah 35 orang anggota komsel yang berada pada tahap usia dewasa awal. Responden dipilih berdasarkan teknik purposive sampling dan memenuhi kriteria populasi penelitian. Setiap responden mengisi kuesioner Attachment to God yang telah diadaptasi oleh Heliany Kiswantomo.,M.Psi, Psikolog yang terdiri dari 28 item. Berdasarkan uji validitas dan reliabilitas, terdapat 24 item yang dinyatakan valid (dapat digunakan) dengan koefisien validitas berkisar antara 0,33 – 0,76, dan dinyatakan reliable dengan koefisien 0,886. Berdasarkan hasil pengolahan data secara statistik diketahui bahwa sebanyak 37,1% responden memiliki model attachment to God fearful, sebanyak 34,3% responden memiliki model attachment to God secure, sebanyak 14,3% responden memiliki model attachment to God dismissing, dan sebanyak 14,3% responden memiliki model attachment to God preoccupied.

Berdasarkan hasil penelitian ini, model attachment to God yang paling banyak dimiliki oleh anggota komsel GBI Stairway From Heaven Bandung secara berturut-turut dari model yang paling banyak sampai yang paling sedikit dimiliki adalah fearful, secure, preoccupied, dan dismissing. Peneliti mengajukan saran bagi penelitian berikutnya untuk melihat faktor-faktor lain yang dapat memengaruhi model attachment to God.

Kata kunci: model attachment to God, fearful, secure, dismissing, preoccupied

ABSTRACT

Attachment to God is an affection bond that occurs between man and God as the attachment figure. This research uses Attachment to God theory according to Kirkpatrick with the aim to know the attachment to God model on GBI Stairway From Heaven Bandung community members who are in the early adult age group.

Respondents in this study amounted to 35 members of cell who are at the stage of early adulthood. Respondents were chosen based on purposive sampling technique and fulfilled the population of the research sample. Each respondent fills the Attachment to God questionnaire that has been adapted by Heliany Kiswantomo., M.Psi, Psycholog consisting of 28 items. Based on the validity and reliability test, there are 24 valid items (can be used) with validity coefficients ranging from 0.33 - 0.76, and stated reliable with the coefficient of 0.886. Based on the results of data processing statistically known that as many as 37.1% of respondents have attachment to God fearful model, as many as 34.3% of respondents have attachment to God secure model, as many as 14.3% of respondents have model attachment to God dismissing, and as many as 14,3% respondents have attachment to God preoccupied model.

Based on the results of this study, the attachment to God model most widely owned by members of the GBI Stairway From Heaven Bandung community in a row from the most common models to the least possessed are fearfull, secure, preoccupied, and dismissing. The researcher proposes for subsequent research to looking as other factors that may influence attachment to God models.

Keywords: model attachment to God, fearful, secure, dismissing, preoccupied
