

ABSTRAK

Populasi kendaraan bermotor di Indonesia khususnya kendaraan roda dua merupakan populasi terbanyak dibandingkan roda empat. Hal ini menimbulkan gaya hidup baru di masyarakat dan memicu munculnya komunitas dan klub yang berdasarkan hobi dibidang otomotif roda dua. Namun dalam menjalankan kegiatannya, para penghobi kendaraan roda dua yang biasa disebut biker memiliki keterbatasan sarana dan fasilitas. Dan juga beberapa oknum dari biker tersebut seringkali meresahkan masyarakat dalam menjalankan kegiatannya. Maka dibuatlah sebuah tempat berkumpul dan menginap yang diberi nama Biker Checkpoint. Tempat tersebut pada kasus ini dinaungi oleh Ikatan Motor Indonesia (IMI) dan dikelola oleh Honda Tiger Club Indonesia (HTCI) agar seluruh kegiatan para biker di tempat ini lebih dapat terawasi dan mengurangi oknum – oknum yang selama ini merugikan. Fasilitas yang ada berupa cafe, hostel, bengkel, retail, dan massage. Dalam perancangan ini penulis memilih konsep touring adventure dan tema city road yang diaplikasikan dalam desain berupa penggunaan material, bentuk furniture dan lighting yang tepat yang juga sesuai dengan user dari perancangan ini.

Kata-kata kunci : motor, komunitas, cafe, hostel, biker

ABSTRACT

The population of motor vehicles in Indonesia, especially two-wheeled vehicles is the largest population compared to four wheels. This situation created a new lifestyle in the community and triggered the establishment of a community and club based on a hobby in two-wheeled automotive. But in carrying out its activities, the hobbyists of two-wheeled vehicles commonly called bikers have limited facilities and facilities. And also some elements of the biker is often disturbing the community in carrying out its activities. Then made a place to gather and stay named Biker Checkpoint. The place is in this case shaded by Ikatan Motor Indonesia (IMI) and managed by Honda Tiger Club Indonesia (HTCI) so that all activities of the bikers in this place more supervised and reduce the elements - people who have been harmful. The facilities that exist such as cafe, hostels, workshops, retail, and massage. In this design the authors have chosen touring adventure concept and city road theme that applied in the design with the use of material, the form of furniture and lighting correctly which is also in suitable with the user of this design.

Keywords : motorcycle, community, cafe, hostel, biker
