ACKNOWLEDGEMENTS

First of all, I want to thank God for the blessings that He has given to me – for the strength, the wisdom, and the intelligence. I feel so grateful for being able to finish this thesis and this is because God always guides me throughout the entire process of writing this thesis.

I would like to thank Dr. Trisnowati Tanto, M.Hum. and Joanna Deborah, S.S., M.Hum. as my supervisors for helping me organize this thesis and for giving me much additional knowledge to support this thesis. Especially for Mrs. Tanto, I would like to extend my gratitude for her having guided me for two semesters in writing this thesis and suggested many ideas in my analysis. I would also like to thank Jeanyfer Tanusy, S.S., M.Hum. for helping me in writing my Bibliography.

Big gratitude is given to my parents, sister, and friends who always keep encouraging and supporting me in making this thesis. I am extremely grateful for having such good people around me who can understand me this way.

I would also like to place on record my sincere gratitude to Natasha Indrani and Ido Sambada for helping me in the printing process of this thesis. Last but not least, I would like to give special thanks to Rizki Theodorus Johan, S.S., M.A. who has always been supporting me in my university years.
