## **ACKNOWLEDGEMENTS**

First of all I would like to express my gratitude for the presence of Allah Swt in every condition; even in my bad and weak condition, Allah always gives me strength through the people around me who always fully support me to accomplish my thesis.

I would like to express my gratitude to my one and only supervisor, Dr. Trisnowati Tanto, M.Hum. In order to make my understanding correct and help me finish the thesis, she is always patient in guiding me. Besides, she spends a lot of her time giving explanation and suggestions to me.

Furthermore, I am grateful for having my beloved parents, my brother, and my sister. I am grateful for their encouragement and support so that I can finish this thesis. I am also thankful especially to my mother, who gives me her never-ending support and prayers until today.

Last but not least, I dedicate my special thanks to my best friends: Audri, Istya, Tisha, Guruh, Irfan, Aisyah, and Febri. Thank you for your true friendship and support.
