

# CHAPTER 1

## INTRODUCTION

### A. Background of the Study

I did my internship in *Anakku* Preschool and Kindergarten from May 29, 2017 to August 18, 2017. In *Anakku* Preschool and Kindergarten I became a teacher assistant who helped the main teacher. I helped teaching the children in kindergarten 1st grade every day. I taught the children with my partner who was the teacher in this school. My tasks during the internship were to prepare books and stationaries for children, prepare children lunch, help the children doing their task and I also filled the children's communication books.

When I did my internship on Wednesday 9th, 2017 I found that two children aged four did not want to do their task. The task was to make shapes like square, circle and triangle and the two children needed one hour and twenty minutes to finish it. When I asked the teacher about the two children, she was also confused how to handle them. So I tried to handle them, I gave them spirit and reminded them if they finished it on time they would have more time to play with their friends, but it did not work so I was also confused. Therefore, I choose this problem as my topic to be analyzed.

## B. Identification of the problem

The analysis of my problem will be based on the following three questions:

1. Why did the two children aged four at Kindy A class not want to do their task ?
2. How did that problem influence the two children and me?
3. How can I motivate the children not to be reluctant to do their task?

## C. Objectives and Benefits of the study

The objectives of the study is to discuss the causes, the effects found during the internship and to find out the potential solutions. I hope by writing this term paper, I can learn how to make students aged four at Anakku Preschool and Kindergarten unreluctant to do their task anymore. Besides that, the teachers in Anakku Preschool and Kindergarten can also use the solutions to solve the same problem. Also for the readers I hope this term paper can be useful for those who want to be a teacher and face the same problem .

## D. Description of the Institution

Based on interview with the Director of *Anakku* Preschool & Kindergarten. *Anakku* Preschool and Kindergarten is a school that consists of preschool and kindergarten. It was established in 2003 and located in Dangdeur Indah II Street Bandung. The vision of *Anakku* Preschool & Kindergarten is to prepare the universal area for developing children's cognition, society, and physical. The mission of *Anakku* Preschool & Kindergarten is to create creative and independent children. The school is led by Ms. Ir. Maya Rosa, M.Arch. It has 9 employees including five teachers, a driver, a chef and a janitor.

## E. Method of the Study

This term paper contains data taken from an internship that I did from May 29, 2017 to August 18, 2017 at *Anakku* Preschool and Kindergarten Bandung in the form of a journal. I found some theories from the Internet and books as my references in doing the study. Besides I also used some of the data from the school, such as interview with the Director of *Anakku* Preschool and Kindergarten for more detailed information.

## F. Limitation of the Study

The term paper is focused on my internship experience as teacher assistant in *Anakku* Preschool and Kindergarten, from May 29 until August 18 2017. The subject of the research are I and two children aged four who were reluctant to do their task in Kindy A Class at *Anakku* Preschool and Kindergarten.

## G. Organization of the Term of Paper

The first part of this Term Paper is the Abstract, followed by Declaration of Originality, and then the next part is Acknowledgements and the Table of Contents. This term paper also contains four chapters. Chapter One contains Background of the Study, Identification of the Problem, Objectives and Benefits of the Study, Description of the Institution, Method of the Study, Limitation of the Study and Organization of the Term Paper. Chapter Two is Problem Analysis. In this chapter I analyze my problem in detail and describe the causes and the effects of my problem. Chapter Three is Potential Solutions, it describes the way to solve my problem with the positive and the negative effects. After that is References, it

contains the electronic references and the list of books used in the term paper and the last is Appendices.
