ACKNOWLEDGEMENTS

First and foremost, with my deepest respect and gratitude, I would like to express my deepest appreciation to my two supervisors, Henni, S.S., M.Hum., and Dr. Trisnowati Tanto, M.Hum., for the patient guidance in helping me throughout the thesis writing. Without their supervision and guidance, I would not have been able to complete this thesis.

I would also like to express my gratitude for the lecturers who have taught me during my studies in the English Department, Faculty of Letters, for the knowledge that has been transferred for my better understanding, and has made me able to write this thesis.

Furthermore, I would like to express my gratitude to my parents, my brothers, and my friends who always love and support me throughout the process of writing this thesis. Thank you for always caring for and encouraging me and having faith in me in completing this thesis.

Last but not least, I thank God for the opportunity that I can experience the whole process of studying, and also for all the blessings that enable me to accomplish this thesis.
