## ABSTRACT

*Vocabulary* (kosakata) merupakan komponen penting dalam belajar dan menggunakan bahasa asing, karena memiliki kosakata yang terbatas dapat mempengaruhi kualitas pembelajaran sebuah bahasa. Oleh karena itu, guru perlu mengetahui tentang *vocabulary learning strategies* (VLS) sehingga mereka dapat memfasilitasi pembelajaran peserta didik. Namun, studi tentang VLS masih terbatas di Indonesia. Untuk mengisi kesenjangan tersebut, penelitian ini menyelidiki *teachers' beliefs* tentang VLS. Peserta penelitian ini adalah dua guru bahasa Inggris di sebuah Sekolah Dasar di Jawa Barat. Dengan menggunakan metode kualitatif, penelitian ini mengumpulkan informasi *beliefs* (keyakinan) dan *practices* (praktik) guru mengajar melalui wawancara semi-terstruktur dan observasi kelas. Temuan awal menunjukkan bahwa kedua guru menggunakan teori strategi kosakata dari Schmitt (1997) seperti *determination strategies*, *memory strategies*, *cognitive strategies*, dan *metacognitive strategies*. Mereka juga menggunakan strategi yang tidak dapat diklasifikasikan ke dalam teori Schmitt (1997) yaitu *using a realia*, *translation method*, *make a point*, *teaching new words in phrases form*, *teaching words through a text*, dan *ask students to retell a story*. Penelitian ini diharapkan dapat memberikan informasi bagi para guru di Indonesia akan pentingnya menerapkan strategi pembelajaran kosakata yang paling sesuai untuk para siswa.
