

ABSTRAK

Di dalam proses pembuatan aplikasi di PT Inmajin Kreatif Solusi sering ditemui kendala keterlambatan penyampaian aplikasi yang disebabkan oleh ketidakteraturan dari *project management*. Untuk itu, diperlukan suatu aplikasi yang dapat mengatur pengerjaan setiap bagian / *task* dari proyek sehingga pengerjaan terhadap *task* dapat terawasi dengan baik. Pendekatan yang digunakan untuk *project management* sendiri adalah dengan menerapkan *Scrum*. Aplikasi yang dibangun berbasis *php*. Diharapkan aplikasi ini dapat membantu untuk pengambilan keputusan dalam berjalannya suatu proyek di PT Inmajin Kreatif Solusi.

Kata kunci: *project management, scrum.*

ABSTRACT

In the process of making applications in PT Inmajin Kreatif Solution often encountered constraints of delay in the delivery of applications caused by the irregularities of project management. For that, an application is required that can manage the work of each part / task of the project so that the work on the task can be monitored properly. The approach used for project management itself is to apply Scrum. Applications built on php. It is expected that this application can help for decision making in running a project in PT Inmajin Kreatif Solutions..

Keywords: project management, scrum.
