#### **Abstract**

The associate degree of the section ever-growing people used social media on a frequently, Information of a social media analyzed in arose many various sciences. The social media analysis technique consists of four steps data representation, system, composition, and assessment. the huge deal of literature on the challenges and problem with specified knowledge analysis methods, there is very little analysis of the stages of data finding, group and arrangement. the counter their discrepancy, our self-came to a collaborative extended and structured literature analysis. Social networking describes the phenomenon found in democratic and self-communicating net sites such as Facebook, MySpace, YouTube where members and participants share their personal lives, discuss, hope, dream, and even act. The ideas of others and ideas of wonder. Online communities represent a growing range of communities in the marketplace where participants give and exchange data on manufacturers, services or common interests. Brands are, or are, social.

# Papel De Las Redes Sociales En La Implementación Exitosa De La Gestión De Datos De Usuarios Comerciales

#### Resumen

El grado asociado de la sección de personas en constante crecimiento utilizaba las redes sociales con frecuencia. La información de una red social analizada surgió en muchas ciencias diferentes. La técnica de análisis de redes sociales consta de cuatro pasos de representación de datos, sistema, composición y evaluación. Debido a la gran cantidad de literatura sobre los desafíos y el problema con los métodos de análisis de conocimiento específicos, hay muy poco análisis de las etapas de búsqueda de datos, grupo y disposición. A pesar de su discrepancia, nuestro auto-vino a un análisis colaborativo extendido y estructurado de la literatura. Las redes sociales describen el fenómeno que se encuentra en los sitios de redes democráticas v de comunicación automática como Facebook, MySpace, YouTube, donde los miembros y participantes comparten sus vidas personales, discuten, esperanzan, sueñan e incluso actúan. Las ideas de los demás y las ideas de maravilla. Las comunidades en línea representan una gama creciente de comunidades en el mercado donde los participantes dan e intercambian datos sobre fabricantes, servicios o intereses comunes. Las marcas son, o son, sociales.

#### 1. Introduction:

Fig.15: Social media graph

by social networking and media apps like Facebook, YouTube, WhatsApp, Instagram, Twitter and multiple apps used to day to day life but the graph can calculate the highest user used in which app and calculated the graph.

#### 5.Conclusion

The conversation is a success key component of social media. The employee used a social media website to expand a business. The voice communication by the line of work in an exceedingly brand, a corporation must be as dedicated to communication through social media because it is to customers. The company should be devoting time to reviewing conversations and dedicate time and energy in responding to the customers. Within the starting, businesses market merchandise and services at the lower costs. In an exceedingly time of once corporations weren't, that they had to watch out regarding sufficient cash, where, once and from whom they production the merchandise and services, and therefore the worsening reduced the belief of the business.

The customer is the unreliable belief of the company as a result of the business if there is no response from the problem. the company can lose whole reliability and believability. The social media is an interaction to customers to solve the problem is not the only place for company services and products. People's business of social media is business lives to several and currently a serious player.
