## **ACKNOWLEDGEMENT**

First of all, I would like to thank Jesus Christ for His everlasting blessings and guidance so that I am able to reach the final stage of my study here and to finish writing my thesis.

I would also like to thank my parents, who have supported me financially and mentally from the very first semester. Without them, I would not have been able to come this far.

I would also like to express my gratitude to my supervisor, Dr. Trisnowati Tanto, M.Hum., who has supported me in many things and has guided me through the steps of writing my thesis from scratch.

Last but not least, I would like to thank my friends, especially my close friends, who have been very supportive in my journey through the ups and downs in life. Without them, reaching this point would have required extra efforts and it certainly could have been more stressful.
