APPENDIX C: CONCLUSION OF THE INTERVIEW

Interviewer : Evangelesse Regine S

Interviewee : Ir. Maya Rosa, M.Arch

This interview's conclusion I made because the interviewee did not want the interview to be recorded. Based on the results of my interview with the director of *Anakku: Preschool and Kindergarten*, Ms. Maya Rosa, *Anakku: Preschool and Kindergarten* has been established since 2003 on Jl, Dangdeur Indah II no. 2, Bandung. At first, this school with seven teachers, only opened Preschool classes for children, one of the teachers was Ms. Maya herself. However, later on she founded the architectural business with her husband, she decided not to teach again in *Anakku: Preschool and Kindergarten*. In 2010, *Anakku: Preschool and Kindergarten* had a branch in Bandung Supermall, Jl. GatotSubroto 289, Bandung because of the many requests from parents to open Kindergarten classes. Even so, due to administrative problems, the branch in Bandung Supermall is permanently closed and now the school is only located on Jl. Dangdeur Indah II no.2, Bandung.

Ms. Maya said that it was her experience living in the United States that made her set up *Anakku: Preschool and Kindergarten*. She saw a distinction between children in Indonesia and the United States. In Indonesia, children tend to feel uncomfortable and are forced to go to school because school routines are only continuous learning. In contrast, in the United States children are really happy to go to school because they can learn while playing and meet friends to socialize. This is what prompted Ms. Maya established a school in Indonesia that has a concept like in the United States where children are encouraged to socialize more, pour creativity, and instill

independence and discipline values. Ms. Maya also said that this concept was accompanied by the formation of attitudes, character, and debriefing to take the next level of education. She chose the name of *Anakku: Preschool and Kindergarten* because according to her, the children who attend school are like her own children.

Ir. Maya Rosa, M.Arch
