ACKNOWLEDGMENTS

First of all, I would like to praise and thank to Almighty Allah SWT for the plenty of mercy and strength so that I can finish my thesis.

Secondly, I would like to express my biggest appreciation and sincere gratitude to my supervisor, Dr. Trisnowati Tanto, M.Hum., for her enthusiasm, encouragement, and patience, which also helped me throughout the process of writing the thesis. Her guidance helped me a lot to complete this thesis, and without her help, I would have been lost and unable to finish this thesis.

My sincere thanks also go to my beloved mother and brother, who have given all their love, moral and financial support to me throughout my study. Finally, I would like to thank my caring and supportive friends: Yowana, Hasna, Kinanti, Debbie, Dhea, Annissa, and April, who support and are always there for me whenever I need their help and encouragement.
