ACKNOWLEDGEMENTS

First and foremost, praise God Almighty for His grace and blessing that I can complete my thesis.

I would like to express my sincere gratitude to my first and second supervisors, Henni, S.S., M.Hum. and Joanna Deborah, S.S., M.Hum., who have kindly directed and guided me in conducting and completing this thesis. Even if they have a lot of things to do, they are willing to help and motivate me to finish this thesis.

My appreciation also goes to my family – my dad, my mom, and my beloved sister, Reinatha Prianka – whose faithful love and support have brought me to the end of my study in university. They are always there for me during happy and hard moments.

Lastly, I would like to thank my truly loyal and caring best friends, Ivan Timothy and Stephanie Larasati, who have always been there for me. Thank you for the patience and encouragement you give me while I am studying.
