

Paper "Development a Smart Campus Framework"

1. Submit ke jurnal WTE&TE

Balasan dari editor

Dear Mr Imbar

Thank you very much for your kind message and your willingness to publish an article in the World Transactions on Engineering and Technology Education (WTE&TE). We will be happy to consider your article for inclusion in the WTE&TE, Vol.20, No.4.

Attached, please find a kit for authors. This should assist you in the preparation of your article. You may also find some useful hints on the WIETE style and formatting in the Editorial Comments attached to this message. There is a **checklist in this document**, which you should use before sending your paper to me. Please note that you should avoid the use of capital letters and italic script.

In preparing your article, you should not make any changes to the template, and strictly follow the Instruction for Authors. Please do not use bold faces in the article nor in the figures! The abstract must not exceed 10 lines. Also please note that a **single line space** must be placed between the paragraphs, figure, captures, equations, formulas, etc. Paragraphs must not be too long. Further, would you please supply us with **the original, editable figures**, so that we can access them and make necessary corrections if required? We accept figures generated in MS Word, Excel and Visio. More information can be found at the journal's site:

<http://www.wiete.com.au/journals/WTE&TE/Pages/index.html>

Also, please note that submitted articles **must be accompanied by the fully filled in and signed Submission Form & Payment Details**. However, you do not need to pay the publication fee at this stage. You will be asked to do so, when the article has been refereed positively.

I also have a few specific comments.

In preparing your submission, you have to redo all the figures as the captions must be in the form of sentence case, no capital letters and no italic, no funny colours, and you must supply us with the editable versions of the figures.

You must present the references, using the WIETE style!

I look forward to receiving your contribution to the WTE&TE journal.

Kindest regards

Zenon J. Pudlowski

Dear Prof Zenon Pudlowski,

I've made improvements to the figure, for making figures, I use smart art in PowerPoint. So, I include the PowerPoint file so that the figure can be edited. In addition, I include PNG files, Visio, and word documents for images.
I have also made improvements to the bibliography.
Thanks for the opportunity to publish in WTE&TE Journal.

Best regards,
Radiant Victor Imbar

Dear Mr Imbar

I am delighted to inform you that your article, tentatively entitled (subject to editorial change): *Development of a smart campus framework*, co-authored by Radiant V. Imbar, Suhono H. Supangkat, Armein Z.R. Langi & Arry A. Arman, has now been refereed positively and, as such, has been accepted for inclusion in the WTE&TE, Vol.20, No.4.

In order for us to commence the processing of your article, you should immediately pay the article publication fee as per the Submission Form & Payment Details (2 additional pages - \$A1100). **Please note that the payment of the publication fee is now due.**

Also, please note that the WIETE does not issue invoices for institutions which are not our partners as we operate with individuals not institutions. The Submission Form & Payment Details is the *pro forma* invoice, and is issued with individual authors.

The solution to the matter of payment is simple: has your payment of the article fee been accepted by the university authority (and you have received the acceptance message), you can transfer the funds to our account from your private bank account. We will immediately issue a proper receipt on receipt of the funds, which you can lodge with your university for reimbursement. This has been done by many individual contributors over the last 12 or so years. It also speeds up the process of payment as university administrations worldwide are usually very slow.
