Dear Dr. Wahyu Widowati,

You have received this email to confirm that an account has been created for you in the Elsevier Editorial System (EES) - the online submission and peer review tracking system for Biomarkers and Genomic Medicine.

Please note: Your username is the E-mail Address to which this message was sent.

At the same time, a consolidated user profile has been created. This is a 'parent' account which contains your contact and log-in information. When you register for another Elsevier journal, you can link the new journal to this consolidated profile. Doing this will automatically copy the contact and log-in information to your new account. This means that you will be able to log in to all of your Elsevier journals using the same username and password.

When you log in to EES, you can update your password and other personal information by selecting the "change details" option on the menu bar at the top of the page. On this Change Details screen you can also provide journal-specific information, such as personal keywords and classifications, or opt out of receiving marketing mail.

If you forget your password, you can reset this online by visiting one of the EES sites linked to your consolidated profile and clicking the 'Forgotten Username/Password' link.

Any updates you make to your contact and log-in information will be reflected in all journals that are linked to your consolidated user profile.

Kind regards,

Elsevier Editorial System
