List of automatic GEOFON earthquake locations

This bulletin is a product of the [GEOFON Extended Virtual Network \(GEVN\)](#) and credit belongs to all involved institutions!

Disclaimer: Unless revised by a geophysicist, automatically determined earthquake locations may be erroneous! The information on this page is provided for scientific use only and must not be disseminated to third parties.

This page was generated at 2007/02/15 12:22:22 GMT and is also available as real-time [RSS news feed](#)

Output restricted to time period from 2006-07-01 to 2006-12-01 latitude range from -8° to 11° longitude range from 106° to 110° 500 events per page maximum
