APPENDIX

FLOWCHART

Causes
1. The teacher does not give clear instructions
2. The pupils are not happy to be at school because they want to be near their family
3. The pupils lack of motivation to learn

Problem
Difficulty in handling pupils who do not want to be involved during English learning activities at TK Tiara Bunda

Effects
1. The English skills of the pupils improve slowly
2. The teacher becomes stressed
3. The other pupils’ concentration is distracted

Potential Negative Effects
1. The pupils always want to be close with the teacher in the class without being involved in the activity
2. The teacher may like some pupils more than the others

Potential Solution I
The teacher approaches the pupils during the break time

Potential Positive Effects
1. The teacher knows better of how to make the pupils involve in English class activities
2. The relationship with the pupils becomes better and better

Potential Negative Effects
1. The pupils only want to be involved in interesting activities which they like
2. The teacher has to spend more time to prepare teaching aids to support the activities

Potential Solution II
The teacher uses incorporated various activities based on pupils’ interests

Potential Positive Effects
1. Class improvement can go faster than before because the pupils are interested in the activities
2. The pupils can learn better because the activities help them to understand the lesson more easily
3. The pupils feel happy in learning

Potential Negative Effects
1. The teaching strategies that the teacher uses are not always suitable for every pupil
2. The teacher has to spend more time to prepare many teaching strategies to make all the pupils understand the lesson well

Potential Solution III
The teacher uses various teaching strategies based on pupils’ learning styles

Potential Positive Effects
1. The pupils can have good achievement because the teacher’s teaching style suits their learning styles
2. The pupils can be more excited to learn at school because they can understand the lesson easily

Chosen Solution
Potential Solution II & III
