

FLOWCHART

CAUSES

PROBLEM

EFFECTS

1. Pupils are shy
2. Pupils still could not adapt themselves with the new environment
3. Pupils did not understand what the teacher said

The teacher at Tumble Tots has difficulties in handling two until three years old pupils to speak up

1. The learning process becomes more slowly than it should be.
2. The teacher has to spend extra time to encourage the pupil to speak
3. The other pupils will be neglected

Potential negative effects :

1. Teacher does not have time to take care of the other pupils
2. The pupils become spoiled

Potential solution 1 :
The teacher must approach the pupils more closely

Potential positive effect :

1. Pupils will feel comfortable
2. Pupils will be more confident to speak

Potential negative effects :

1. The parent can be angry to their children
2. The teacher must spend extra time to speak to the parents

Potential solution 2 :
The teacher should try to talk to their parents to encourage the quiet pupils to speak

Potential positive effect :

1. Pupils will be more comfortable
2. Pupils will be more confident and be brave to speak in class

Potential negative effect :

1. School should spend more money to pay the teacher assistant

Potential solution 3 :
The school hires a teacher assistant

Potential Positive effect :

1. A teacher assistant can help the teacher in encouraging the pupils to speak

Chosen Solutions

The teacher must approach the pupils more closely and try to talk to their parent to encourage them
