APPENDIX

Causes **Effects** Problem: - I am a new teacher without The children are noisy and they yell. I am not able to give experience The children do not obey the instructions - I have a low voice. effectively to the teacher. - I am too lenient to the children. children in TK A The children do not do their work class at LCC. The children do not respect to the **Potential Positive Effects: Potential Negative Effects:** Potential solution - Some of the children will feel it is - The children will be more active in unfair if the teacher only gets closer class activities. with some of the other children. I have to develop - The children will not feel bored in - The children do not have any good communication class. respect to their teacher because of skills with the - The teacher is easier in giving instructions to children in class. having too close relationship the children. children will. **Potential Potential Negative Effects: Potential Positive Effects:** Solution 2 - Children will be nervous or - It is easier for the teacher to control the children's behaviour. embarrassed. I have to stand - Children will feel uncomfortable. - The children will give more attention closer when giving to the lesson. the instructions. **Potential Positive Effects: Potential Negative Effects: Potential** Solution - The teacher will know a lot about how - The new teacher who has followed 3 the training will be needed more by to give instructions to the children in the the school, so the senior teacher will classroom. I should follow feel jealous and not feel so useful - The teacher will give valuable way to training programs

Chosen Solution:

- The school has to pay the cost for

training of teachers.

related to how to

give instructions to

children.

other teachers about how to teach

instructions with greater confidence.

- The teacher can communicate to give

children in an effective way

I have to develop good communication skills with the children.
