

ABSTRAK

Indonesia merupakan Negara yang kaya akan keanekaragaman, salah satunya adalah kesenian perkusi. Alat musik perkusi tradisional yang dimiliki berbeda-beda pada setiap daerahnya. Salah satunya adalah perkusi tradisional Gamelan. Selain Gamelan juga adapula alat musik yang mulai terlupakan yaitu angklung dan arumba. Seiring perkembangan zaman, generasi muda sekarang seakan tidak mengenal dan tidak peduli atas kesenian asli yang dimiliki oleh bangsa ini. Dapat dilihat dari semakin tergesernya perkusi tradisional oleh modernitas, bahkan ada beberapa yang hampir punah karena tidak dilestarikan. Masyarakat sekarang ini lebih tertarik pada alat musik perkusi modern seperti yang digunakan pada instrumen Drumband. Oleh karena semakin berkembangnya perkusi modern dan pengaruh-pengaruh dari luar, maka muncul suatu trend baru yaitu perkusi kontemporer yang menggunakan barang-barang bekas seperti ember bekas, galon, pipa, ban, alat makan, botol bekas, dan masih banyak lagi. Dengan semakin berkembangnya kesenian perkusi dari tradisional, modern, hingga kontemporer maka menandakan antusias dan minat terhadap musik perkusi, khususnya di Kota Bandung. Banyak komunitas-komunitas perkusi bermunculan, namun belum ada tempat untuk mewadahi para pencinta maupun penikmat musik perkusi.

Maka dari itu, dirasa perlu membuat suatu wadah untuk menyatukan, memperkenalkan, melestarikan dan mengembangkan kesenian perkusi tersebut dalam satu tempat dengan cara merancang *Bandung Percussion Center* yang dilengkapi dengan fasilitas seperti galeri, cafe, perpustakaan, ruang latihan khusus, ruang latihan gabungan, dan workshop.

Konsep perancangan *Bandung Percussion Center* adalah *Unity in Diversity* yang memiliki arti yaitu kesatuan dalam keanekaragaman. Serta tema yang digunakan pada perancangan ini adalah merancang suatu komponen ruang yang dapat mengingatkan seseorang pada perkusi.

Keyword: perkusi, Bandung Percussion Center, Unity in Diversity

ABSTRACT

Indonesia is a country rich in diversity , one of which is the art of percussion . Traditional percussion instruments owned vary in each region . One is the traditional gamelan percussion . Besides Gamelan also unisex forgotten musical instrument is angklung and start arumba . As the times , as if the younger generation does not know and does not care for the original art owned by the nation . Is apparent from the displacement of traditional percussion by modernity , even some that are endangered because not preserved . Society today is more interested in modern percussion instruments such as those used on the instrument Drumband . Therefore, the development of modern percussion and influences from the outside , it appears a new trend that is contemporary percussion using secondhand items such as a used bucket , gallon , pipes , tires , cutlery , bottles , and much more . With the growing percussion of traditional art , modern , contemporary to signify the enthusiasm and interest in percussion music , especially in Bandung . Many communities popping percussion , but there is no place to accommodate lovers and music lovers percussion .

Therefore , it is necessary to make a container to unite , introduce , preserve and develop the art of percussion in one place by designing Bandung Percussion Center is equipped with facilities such as galleries , cafe , library, special training , combined exercise room , and workshop .

Bandung Percussion Center concept is Unity in Diversity that have meaning that is unity in diversity . As well as the theme used in this design is to design a space component that can remind someone on percussion .
