Causes of Problem:
- The way of teachers explain is not clear
  E.g.: Teachers do not give examples to support their explanation, so the students feel confused about the lesson.
- The standard of material is too high
- Inconvenient environment

Problem
Unmotivated students at KIDS2SUCCESS

Effects of Problem:
- Students will do their task slowly and cannot finish the exercise
- Students do not pay attention to the lesson

Solution 1:
Change the way teachers explain
Positive effects:
- Students can understand the lesson fully
- Students' motivation will increase because they do not feel difficult in understanding the lesson

Negative effects:
- If there is no difficulty, there will be no challenge for the students and makes students feel bored

Solution 2:
Standardization the lesson with students’ capability
Positive effects:
- Students can understand the lesson fully
- Students' motivation will increase because they do not feel difficult in understanding the lesson

Negative effects:
- Institution needs to spend more money to provide a more comfortable place for students to study

Solution 3:
Provide the students with good environment
Positive effects:
- The quiet and silent place can increase students' concentration and motivation
- The students can study more effectively

Negative effects:
- The teacher needs extra time to explain the material to the students
  E.g.: Teacher uses example to make the students understand clearly

Chosen Solution
Change the way teachers explain & Provide the students with a good environment
