**FLOWCHART**

**Causes of Problem:**
- She was an only child, as a result, her parents love her, which is too much.
- Parents are over-protective.
- Parents always do what she asks for.

**Problem:**
A student at Tumble Tots playgroup senior class really depends on her parents.

**Effects of Problem:**
- The child can become too attached to her parents.
- The child becomes fainthearted.
- The child has a difficulty to socialize with others.

**Solution 1:**
The child has to come to the classroom earlier.

**Negative effects:**
- She will be crying out loud and looking for her parents in near future, the child will shift her dependence on her teacher.

**Positive effects:**
- The child can socialize with others.
- Teacher can approach the child easily.

**Solution 2:**
Parents must not accompany their child inside the class.

**Negative effects:**
- The child will have less self-confidence in a few weeks if there are no parents beside her.
- The child will refuse to go to school.

**Positive effects:**
- The child can socialize or can find new friends.
- Parents can do their activities at home or at work.
- The child can do something by herself.

**Solution 3:**
The child may spend the time by playing at friend’s house.

**Negative effects:**
- The child might want to keep playing at her friend’s house.
- The child will prefer staying at her friend’s house.
- The child can imitate a bad habit from her friends.

**Positive effects:**
- The child can learn new things in her friend’s house.
- The child has new friends outside school.

**Chosen Solution**
The child has to come to the classroom earlier.
Parents must not accompany their child inside the class.
The child may spend the time by playing at friend’s house.
